

CHIANTI & MORE

LUCCA REF. 146

This spectacular residence with particularly elongated form and hillside position is located on the green hills, just a few kilometers outside of the art city of Lucca, famous for its original city walls which are just one aspect of the city's timeless beauty that over the centuries has remained intact.

Truly a gem of a Tuscan town, Lucca is easily navigable on foot or by bike and is full of delightful and romantic surprises appearing around every corner. From the villa one can also admire the interesting and evocative Apuane Alps crowning the horizon. In fact, observing the slopes of these mountains, one can make out some of the marble quarries that export this precious stone all over the world. These peaks, often appreciated as a destination for interesting excursions and hiking trips, are renowned for their marvellous vistas stretching out towards the not-too-distant Mediterranean Sea.

The large swimming pool is well-equipped with all the necessary amenities for relaxing or sun-bathing poolside. An additional gazebo provides a covered area where one can enjoy cool summer breezes. A small nearby annex serves as a changing room and is also equipped with a bathroom, shower, refrigerator and two single beds (children or teenager love to sleep here).

Typical of Tuscan rural buildings, the red brick patterns were once the perforated walls of barns, built in such a way as to allow the circulation of air throughout, so as to keep the hay from rotting. The garden is characterized by a manicured lawn embellished with large vases containing flowers, citrus trees, aromatic plants and creeping vines. Running all around the building is an arbour covered with different varieties of climbing plants that guarantee cool shade in the living and dining area.
